Describe your current participation in Dignity either at the local chapter/community level, the national level, and as a national member.

What motivates you to become a leader? Since many people are leaders and may not realize it yet, can you think of any examples in your life where, in fact you have led or do lead people?

Consider topics such as your goals in life, your spirituality, what really motivates you, interesting aspects of your life such as hobbies, community involvement, and more.
